

*Beautiful yet Comfortable—
Speedy yet Seaworthy—*

BABY GAR

Three times winner of the Wood-Fisher Trophy Race, winner of the Allison-Fisher Race in 1922, first displacement boat to cover 50 miles in less than an hour—*Baby Gars* are conceded to be "The World's Fastest Practical Runabout".

And they are *practical*—seaworthy, roomy, comfortable. A *Baby Gar* is a wholly satisfactory runabout; yet at your command is a world of speed, instantly available.

You, too, can own a record-making *Baby Gar*—a duplicate of the original—built under the personal supervision of Gar Wood. Write us today for details and prices.
